MOUNTAIN EAGLE

IT SCREAMS! Whitesburg, Letcher County, Kentucky, Thursday, February 28, 1963 Vol. 55, No. 42

Jenkins hospital to close

Sharon Heights Hospital at Jenkins, one of the oldest hospitals in Eastern Kentucky will close its doors March 7.

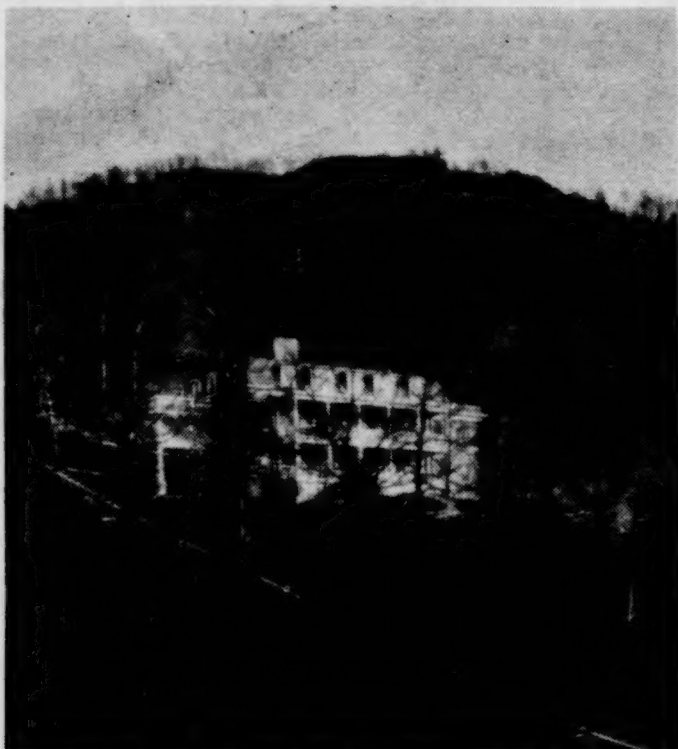

An announcement sent to The Mountain Eagle said the institution was closing "temporarily." Sister M. Evangelist, administrator, declined to elaborate on the length of the closing or on the hospital's reasons for closing.

The hospital has been operated by the Sisters of Divine Providence, a Catholic order, since 1948, when Consolidation Coal Co., which had built it, sold its Jenkins holdings to Bethlehem Mines Corporation.

Observers in Jenkins said Sharon Heights has had a charity lead of 35 per cent or more for many months and cannot continue to operate without more money. Paying patients mostly are using the new Jenkins Clinic Hospital or the Miners Memorial Hospital at Whitesburg. Sharon Heights sister institution, Mount Mary Hospital at Hazard, has been struggling under the same charity burden. Mount Mary announced it also will close but Hazard residents have raised about \$25,000 in pledges and contributions in an effort to keep the institution open.

The Miners Memorial Hospital Association has announced it will close the Whitesburg Hospital, the Hazard Miners Memorial Hospital and similar hospitals at Middlesboro and McDowell on July 1. The association reaffirmed its intention to close the hospitals again this week in reply to a request from the Kentucky legislature that the association reconsider its decision.

If both hospitals close, Letcher County will be left with only the Jenkins Clinic Hospital in operation.

In earlier days, an inclined railway (foreground) led up the hill to Jenkins' Sharon Heights Hospital, one of Eastern Kentucky's earliest. The hospital will close next week. (Story at left).

Student play Tuesday

Whitesburg High School students will present two one-act plays at a special performance Tuesday night at the Grade School auditorium.

One will be "The Hungerers," by William Saroyan, with which the students won a superior rating at the regional dramatics festival at Hazard last week.

The play is directed by Elmer Banks and Anne Lewis, teachers at the school, and the cast includes Paul Price, Angeleon Blair, Barbara Adams, James Fields and Steve Yonts.

The second play will be "A Way to Provide," written by Banks and directed by him and Mrs. Stephen Combs Jr. The cast will include Judy Carroll, Sue Lewis, Coy Holstein, Steve Yonts and Ty Hall.

Sherry Conatser will sing during intermission.

Admission will be 50 cents,

and proceeds will go to pay the way of the cast of "The Hungerers" to the state drama festival in Lexington March 8.

ASIAN FLU STRIKES

More than 200 cases of Asian flu have been reported in Letcher County the past week, according to the county health department.

Sanitarian Charlie Hall said 140 students were absent from Letcher School on account of flu, about 50 were absent from Jenkins schools and 5 or 6 each in the Fleming-Neon and Whitesburg areas.

Doctors are not required to report cases to the department, so there is no count on the number of adult cases, Hall said. The disease apparently is widespread among adults also.

Physicians advise bed rest, aspirin and fruit juices.

School board rescinds order on redistricting

The Letcher County Board of Education has voted to drop its proposed shuffling of school board district boundaries.

The board, in a special called meeting held last Monday afternoon, voted to rescind its previous redistricting order and to leave district boundaries as they have been during the past few years.

The board's action came at a special meeting, called by Board Chairman Kerney Day. Day joined Ray Collins and Arnold Hall in voting to undo previous board action and to leave the districts alone.

The board's action came on motion of Collins, who said the old school district boundaries had constituted a reasonable division, with each district casting approximately the same number of voters, about 1300 each.

The proposed redistricting, Collins said, would have given Kerney Day's district a disproportionately large number of votes, about 1600, but would have cut Kern Whitaker's district to only about 800 voters.

Collins made a plea for unity on the school board, saying it is time to call a halt to the business of rule or ruin which has been the hallmark of Letcher County in recent years.

Collins said he could work with Superintendent Sanford Adams and other board members on any matter that is for the good of the schools.

He remarked that in any dispute there usually are three sides--"Your side, my side and the right side."

"And you don't spell it W-R-I-G-H-T," Collins said.

Hall also called for unity saying that at the present time there is nothing to keep him from voting to renew the contract of Superintendent Adams, assuming Adams works in har-

mony with the board for the good of the schools.

Superintendent Adams declared his willingness to work with Collins, Hall and Day on matters affecting the good of the school, but remarked that harmony requires cooperation from six persons--all five board members as well as the superintendent.

Collins told Adams that his sincerity in declaring his willingness to cooperate might well be tested by whether there is a suit to force redistricting of the school system along lines laid down a few weeks ago by school board member Dr. B.F. Wright.

"You can keep a suit from being filed if you want to," Collins told the superintendent.

Neither Dr. Wright nor Board Member Kern Whitaker attended the special school board meeting. It was Wright, Whitaker and Board Chairman Day who had voted together to pass the original motion for redistricting, despite opposition from Hall and Collins.

The redistricting would have deprived several hundred voters in the Isom district of a vote in a school board race for the next seven years. The action created a storm of protest in the Blackey-Isom area, and this protest from voters apparently led to Chairman Day's change of mind and the meeting Monday in which the redistricting proposal was abandoned.

Book discussion set

The second in a series of book discussions will be held Monday night at the Letcher County Public Library.

The Rev. Charles Hansel of Neon is leading the discussion group, which now is considering the merits and meaning of Aldous Huxley's novel, "Brave New World," a modern classic.

Even the worst weather has some compensations, and one of them is the sight of snow-covered Pine Mountain, towering above Whitesburg, gleaming in the last rays of a winter afternoon sun. No one who has lived in Letcher County very long can escape being captured by the mystery and majesty of the mountain, ever the same and yet never the same as her moods change with each drifting cloud and ray of sun. If West Virginia can get libraries, why can't we?

We note that Ladybird Johnson, wife of the Vice President of the United States is going to West Virginia to dedicate a community library built with Accelerated Public Works money.

This raises several questions.

How has West Virginia been able to get a public works project so far along it can be dedicated when East Kentucky can't seem to get any project off the ground?

Eastern Kentucky cities and counties were told there wasn't much point in applying for public works money for libraries, community centers and other similar projects because sewer and water projects had been given top priority--and that no library projects would be approved until water and sewer needs were taken care of.

So, if West Virginia can get a federally-financed library, why can't we? If the sewer-water rule is being applied, how could the West Virginia library project have been started when applications for projects for such things as water and sewers apparently gather dust on shelves in Atlanta and Washington?

Those are questions that might well be pondered by Senators Cooper and Morton, Congressman Perkins, and Governor Combs--as well as by the thousands of empty-handed voters of Eastern Kentucky.

Youth Corps would not help Eastern Kentucky

One of the main points in President Kennedy's program for Congress this year is establishment of a Youth Conservation Corps, similar to the old Roosevelt CCC.

The bill is sponsored by Congressman Perkins, of this district, and appears reasonably certain of approval by both the House and Senate. Perkins and other supporters of the bill are pushing it as one answer to such problems as what to do with youths who drop out of high school, juvenile delinquency, the unemployed and depressed areas.

We have no real doubt that as a part of the broad national answer of what to do about broad national problems raised by youth, the proposed YCC would have a useful role.

Be we in Eastern Kentucky will be deceiving ourselves if we believe the proposed program would do much to relieve our chronically depressed situation. And Congress, too, will be sadly deceiving itself if it approved the program in the belief it is helping Eastern Kentucky.

The program would employ youth in camps to be maintained by the National Park Service and the U.S. Forestry Service. Further, it would employ youth on a 50-50 financing basis for work in local and state public projects.

Except for a small area encompassing Cumberland Gap National Park, and the Cumberland National Forest, there are no federal lands of consequence in Eastern Kentucky. This means that the opportunity for employment under the program in such counties as Letcher, Knott, Perry, Pike, Floyd and many other Eastern Kentucky Counties would be virtually nil.

Further, the 50-50 matching provision will be of no practical effect in this area. We doubt that Letcher County or any of its cities could find matching funds to hire even one unemployed youth.

A further criticism of the YCC bill is that it treats symptoms, rather than causes. Actually, a program employing every idle youth in Eastern Kentucky in tree planting, etc., would do little if anything to provide a permanent solution to the areas needs.

What would happen to an Eastern Kentucky boy working in one of the proposed camps until he reached the age 21, when he would be disqualified from further participation? Could he return to his home community to find full, acceptable employment? Probably not.

We need permanent solutions to our economic needs, not temporary, make-work projects.

Plan to set a spell

The Whitesburg Chamber of Commerce has received a letter from a Paris, Kentucky, doctor which gives some measure as to what tourism could mean to Letcher County and Eastern Kentucky.

The doctor states that he has read about the Little Shepherd Trail along the top of Pine Mountain between Whitesburg and Harlan. He said he wants to bring a group of a dozen persons for a trip over the trail, added that the group would plan to spend the night in the Whitesburg area, and inquired about hotel and food accommodations.

There seems to be little doubt that a group of this size would spend more than \$100 locally for rooms, food, gasoline, etc. And it doesn't take much imagination to see what steady promotion and use of the trail could do for our economy over a period of time.

Trouble is, the trail is not passable at present. It will need some reworking with a bulldozer and the application of many hundreds of tons of gravel before it can be opened again to traffic. We assume, in the absence of certain knowledge, that the state Division of Forestry--perhaps with aid from the state highway department--will put the trail back in usable shape when weather permits.

Perhaps some letters from the Chamber of Commerce, our county judge and the Whitesburg City Council to Lt. Gov. Wilson Wyatt and the highway department and forestry division would be in order. Wyatt has been primarily responsible for development of the trail so far, and we feel certain his interest has not lessened.

We have believed for some time that the Little Shepherd Trail potentially is as much of a drawing card for tourists as the Breaks Interstate Park, Dewey Lake, Buckhorn Lake or any of our other Eastern Kentucky attractions. It is nice, however, to have some tangible reinforcement for the belief in the form of the letter from the Paris doctor.

LETTERS TO THE EDITOR

Praises Miss Shaw

To The Editor:

I wish to add my voice to that of Mr. Shafter Davidson of Jenkins in his commendations of the great service which the Jenkins Library is doing for that community, and to Miss Clara Shaw for her untiring leadership in bringing a fine book collection within the reach of everyone in the community.

Every book which a child reads, every fine musical recording or picture which an adult enjoys adds to his knowledge and his appreciation of the best and most beautiful things in life. Each of us here in the mountain counties who have been denied access to such things for so many generations and who can now enjoy them is thereby enriched. Jenkins is fortunate in having had a leader which both the dedication and the time to devote to such an important and far-reaching project.

Very truly yours

Where do taxes go?

To The Editor:

The people of Linefork would like to know where the tax money is going. It sure isn't coming over our way. We have roads so bad that when we travel up and down the roads we have to carry a coffee sack with us to pick up the bolts and parts of our cars. One of our boys had to ride his horse and the horse would come to one of the big holes in the road and think it was some kind of a trap. The horse ran through a barbed wire fence with him and tore his pant's leg off. In case you are wondering who this is, it's Bobby Ray Polly.

Yours truly
Thomas Armstrong

When you go to polls, remember holes!

To The Editor:

I have enjoyed visiting in my old home town during the last week and seeing my friends and relatives over the county. So many have died or moved away since I moved to Lexington seven years ago that it makes me feel sad each time I come back, however.

It is astonishing to see how little some of the county officials are doing for the county. The county roads have been allowed to get in a perfectly awful shape. Up on Pine Creek I saw a car knock its oil pan off on a road that was supposed to be blacktopped. It had hit a chug hole nearly a foot deep. What does the county do with its state road funds?

My advice to the good people of Letcher County is WHEN YOU GO TO THE POLLS, REMEMBER THE HOLES!

Sincerely
Homer Jones

Now I am married and live in Flint and love it here.

Even birds sweeter

To The Editor:

I was born and raised on Little Elkhorn Creek and I married Frank Hall in 1911 and raised my family there, partly.

I was a neighbor to Jane Baker's father or rather my father was and Jane and I were raised up as neighbor girls.

Martin Bentley and George Howell and we were the only neighbors that lived on the head of Little Elkhorn then. When we children grew up, we married and moved away to other places, but I stayed and partly raised my family there; then we moved to

Pike County and finished raising our family in Pikeville till they all married off. So I feel that Letcher County partly belongs to me or I belong to it, so to say. I always call it home, sweet home. To me old Kentucky is my best loved state. The rocks and rills feel dearer than any other place to me. The birds even sing sweeter than here to me.

Yours truly

JAMES JOHNSONS HAVE NEW SON; SGT BOBBY SEXTON ILL IN HOSPITAL; PAUL THOMPSON COMING HOME

By SARAH ADAMS

Mr. and Mrs. James Johnson are mighty proud folks these days--and proud they should be. The old stork came to visit them on Feb. 13 and brought them a 12-pound boy. They call him Rex Allen. The Johnsons have two daughters. Mr. and Mrs. Ashley Johnson and Mr. and Mrs. John Fleming are the grandparents.

Mrs. Lute Sexton tells me that her son, Sgt. Bobby Sexton, is confined to the hospital in Fort Knox, where he is stationed. Another son, Otis Sexton, made a trip to London to visit his wife, who is in a hospital there.

Pfc. Paul Thompson, now serving overseas, is expected to be home real soon. His wife is the former Peggy Sexton.

Did you know that February 14 is a good time to plant your peas? I tried to get Alfred to plant mine and he said he was ashamed to be seen digging in the snow. He persuaded some boy to do the job for him. Anyway, my peas are now in the ground.

Mrs. J. W. Vanover, and son Timmy and daughter Jill, were visiting with her parents, Mr. and Mrs. Arthur Lucas, on Thornton.

Mrs. Q. D. Tolliver and Tony Paxton went to Lexington to see Mrs. Tolliver's mother, who is still in a critical condition at the St. Joseph Hospital. Her father, Granville Hall, is confined to a hospital in Pikeville.

Miss Kathleen Arnold and Mrs. Ruby Arnold from Ohio have been visiting their parents, Mr. and Mrs. Haynes Arnold, and other relatives and friends.

United States offers young people 24, 000 jobs to choose from, but studies show that high school diploma will be even more important in getting job

Lexington--Young people can choose among some 24, 000 different kinds of jobs in the United States, according to Ralph J. Ramsey, UK Extension specialist in rural sociology. Ramsey was one of the speakers at a UK Farm and Home Week session on "Guiding Our Young People in Their Career Planning."

Ramsey included the following background information on U. S. employment trends and career planning needs:

"The number in the labor force will increase from 74 million in 1960 to 87 million in 1970, with about 82 million jobs available. Increases will be highest for those under 25 years of age and for those over 45 years of age; competition will be highest in these age groups.

"Automation is presently displacing 35,000 jobs a week. Workers who are having the

greatest difficulty finding new jobs are youth under 20 who did not complete high school, workers over 45 who haven't kept up with technological changes, workers without a modern skill, and workers in areas that have few alternative jobs available.

"From 1965 to 1970, there will be 3.8 million youth reaching 18 years of age, in contrast with 2.8 million in 1960. With greater competition for jobs, education will become a more important screening device for entering a new employment. Workers with less than 12 grades of school now have twice the unemployment rate than those with 12 or more grades of schooling.

"The following trends are expected from 1960 to 1970. Professional and technical jobs will increase about 40 percent by 1970. Other classes of workers, such as proprietors, clerical and

sales personnel, skilled and semi-skilled workers, will increase about 20 percent. Jobs for unskilled workers will be about the same in 1970 as in 1960 and the number of farm jobs will decrease."

According to Ramsey, Arthur Goldberg, former U. S. Secretary of Labor, he said: Jobs will be won by young workers who have good education and training, as well as intellect and willingness, because the occupations that stress this kind of background will expand the fastest through 1970."

The need for guiding young people in training for careers in which there will be ample opportunities was emphasized by the various speakers at this Farm and Home Week session. The trend toward more educational requirements for various jobs and the higher salary range of

those with at least high school education also were discussed.

UK recommends weed controls for strawberries

Lexington--Sesone, Dacthal and Eptam will be recommended again this year by the U. K. Ag Experiment Station horticulture department for weed-control in strawberries.

James Herron, weed control specialist, said about 10 chemicals were used last season in his test work. Some were incorporated in the soil prior to planting, others incorporated in the soil or surface-applied two weeks after plants were set out. Some of the materials were granules others were sprays.

The recommended materials (Sesone, Dacthal, and Eptam) performed satisfactorily, Herron said. However, he added that three experimental materials, not yet cleared for use on strawberries, were even more satisfactory in these tests, giving 70 percent weed control or better, and causing no injury to the strawberry plants. He said it is possible that some of the experimental materials may be cleared for use on strawberries this season.

Such clearance is given by control officials only after the most careful and thorough testing.

McRoberts**RESIDENTS APPRECIATE WORK OF NEON VOLUNTEER FIREMEN**

BY MRS. VINA RIDDLE

First of all, we, the people of McRoberts (and I'm sure I can voice the people in our area) would like to extend our appreciation to the Neon Fire Department for their capability and quick response to our needs. Several days ago, the home of Mr. and Mrs. Ralph Smith caught fire, but was quickly extinguished and damages kept at a minimum. We never realize the importance of these things until they're brought to our own homes. Thank you so much!

Mrs. Patty Anderson of Norton, Va. is visiting her daughter and family for several days. Mr. and Mrs. Bud Fleenor.

Larry Holmes was happy to receive his call back to work. He is employed by General Motors in Louisville.

We extend our sympathies to Miss Evelyn Auxier in the death of her mother, who had been ill for some time. Miss Auxier has been our first grade teacher for a number of years.

Listening to the road fatality report Monday morning, it was very sad to hear that there had been ten lives lost over the week end. As of now there have been 96 fatalities compared to 93 at this time one year ago. Sad indeed, when so many lives are snuffed out so quickly and many times so carelessly.

Our deepest sympathies go to the family of Charlie Moore, whose life came to such a tragic ending Friday. Mr. Moore was employed by Bethlehem Steel at Mine 21 and was nearing the age of retirement.

Birthday greetings go to Eddie and Bobby Narramore and Kathy Williams.

Recovering from the flu are Mrs. Carl Mercer and Claude McHones.

Congratulations to Mr. and Mrs. Freddy Bentley (Dwana Kiser) who are the proud parents of a baby girl. They have chosen Donna for her name.

Also Mr. and Mrs. Roger Elkins (Patricia Huff) are announcing the arrival of a nine and one-half pound baby boy. The Elkins are residents of Louisville.

DeSimone.

Also joining the family get-together was Mrs. Narramore's brother, Jimmy Adams, his wife and little son, Jeffrey.

Recuperating from the measles this week is Denise Howard.

I noticed in the newspaper several days ago, a rather unique way of balancing the budget. Here it goes--when bath or hand soap has dwindled to the point where it's about to be replaced by a nice new plump bar, don't throw the fragments out. Sliver it up on a grater and store it in a jar. Add boiling water and the resulting soap jelly is fine for washing dishes, lingerie, the car or anything that calls for a soft touch. A second jarful of soap can be turned into a vigorous cleaner by the mere addition of a halfcup of sal soda concentrate.

Mother: Willie, sit down and tell your sister a story.

Willie: I can't sit down, I just told Daddy a story.

An advertising executive walked into a restaurant in Houston, Texas and said quickly, "Do you serve crabs?" The waiter looked at him and replied, "Sure, we serve anyone. Sit down."

Our continued sympathies go to the families of Mr. Johnson and Mr. Phillips, who remain quite ill at the Whitesburg Hospital.

Mr. and Mrs. Fred Whitt were visiting Mrs. Whitt's parents of Matewan, West Va. over the week end. Both of her parents are in very poor health.

They were also calling on Orville Sublett on Kentucky River, a brother of Mrs. Whitt's.

Two new arrivals are being announced this week. Mr. and Mrs. Lester Little have a eight and one-half pound boy. They have chosen Stewart for his name. Mr. and Mrs. James Birchan have a 10-pound, one ounce boy. This bouncer was named Ross Allen. Congratulations. Folks!

Mr. and Mrs. John Charlton Oldham and baby were visiting friends and relatives over the week end. The Oldhams are residents of Middlesboro.

Miss Sue Clouse was also visiting her parents, Mr. and Mrs. Lige Clouse. Sue has been staying with the Oldhams in Middlesboro for several weeks.

our sympathies to the husband, Bruce, and other members of the family.

Mr. and Mrs. Carl Mercer were visiting Mr. and Mrs. Mercer's mother at Coeburn Sunday.

Mrs. Mercer received word of the death of her step-mother, Mrs. Chale Younce Sunday evening. Mrs. Younce had the flu, then developed other complications. We send our sympathies to the family.

Kedrick Sanders, son of Mrs. Hazel Sanders, just recently received his discharge from the Army. Ked had been stationed in England for about two years. He plans to look for employment in Cleveland.

For every dog owner comes word to be very careful concerning rabies. There have been a number of gray foxes seen in the community and just recently one's head was sent away for a rabies diagnosis and was proven to be positive. If your dog has not been inoculated, by all means, see that he is.

A specialty house in Philadelphia reports a sellout item of mink eyelashes at \$10 a pair. The perfect gift for someone who has worn out her own.

Comes this bit of news from Chicago for the men. Those of you with extra padding had better lose it or disregard fashion's continuation of the "trim and taper" look. The colors will be lighter and brighter.

E.R. Montgomery, from Nebraska has apparently found the solution to an age-old problem. When the doors of the newspaper office got a new coat of paint, he left off the usual "wet paint" sign. Result: Not a single person stopped to rub a finger on the fresh paint.

Kelly DeSimone was ill with the flu Thursday of the past week.

Mr. and Mrs. Wilburn Hall Jr. of Jenkins are the proud parents of a son born Feb. 22. Mr. and Mrs. Wilburn Hall of McRoberts are the paternal grandparents. Maternal grandparents are Mr. and Mrs. Ray Mullins, Dunham. Mrs. Hall is the former Sandra Mullins.

Michigan State FORMER LETCHER RESIDENTS VISIT IN NEW HOMES

By MRS. VINCENT A. ROBERTS

Miss Pearl Baker visited Mrs. Vince Roberts last week. We enjoyed reading the Eagle, which had just arrived in the mail; we saw names of many people we used to know in it. That's the kind of paper I like to read, one that is down to earth enough to let us know what the little folk are doing and yet big enough to scream the biggest headline if need be.

Mr. and Mrs. Boyd Ray Wherry and family had dinner with Mr. and Mrs. Gordon Howard and family Sunday after church.

The Eugene Calhoun family have been sick. They have had flu but are doing fine now. The flu bug has been going pretty strong here in Michigan.

We have a club here in Michigan which is called the Southerners' Club. Once a year we get together; we run into quite a few folks from Kentucky. It sure is nice to see someone you know after so many years; the next get-together is March 16. Bring your friends and have a good time; if you have any questions, get in touch with Mrs. Vince Roberts.

Despite all the bad weather we have been having, some hardy souls get out and visit each other. Mr. and Mrs. Herbert Ackers were visiting Mr. and Mrs. Garret Calhoun Jr. and Mr. and Mrs. Vince Roberts over the week end.

If you have news of anyone in Michigan for The Mountain Eagle, send it to Mrs. Vince Roberts, 39823 Willis Road, Belleville, Michigan, or telephone her at PLaza 3-5541.

The Eagle is Letcher County's most thoroughly read paper!

THE STORY OF TEN LITTLE FREE WORKERS

THESE ARE THE WORKERS

REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLERK REPORTER

Ten little free workers in this country fine and fair.
But if you cherish your freedom—worker have a care!
Ten little free workers—Reddy was doing fine
Until the socialists got him—then there were nine. --

Nine little free workers laughed at Reddy's fate
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven
But the government took over the railroads, then there were seven.

Seven little free workers—'till the miners got in a fix.
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive
The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree
All must have free legal advice—then there were three.

Three little free workers—the number is getting few,
Put with government groceries selling food—then there were two.

Two little free workers—our story's almost done,
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun
Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free
They work when and where ordered, and at a fixed rate you see,
And it all could have been prevented if they'd only seen fit to agree
And work together instead of saying "it never can happen to me!"

Yes . . . this could happen to you. This little story could come true unless each of us works to preserve free enterprise.

Millstone PIGMANS AT KONA HAVE VISITORS

BY MABEL KISER

When you read this, February 1963 will have been history. For some it has been a good month, with happy memories, for some a month of sad memories, but for all of us, it has been a very cold month. Wonder how it will be for all of us when we have to face again the deeds done in the short space of 28 days.

Mrs. Norman Pigman and children are visiting the Cullen Pigmans, Kona. Mrs. Pigman, the former Barbara Stone, is here for the funeral of her grandfather, T.R. Burrows.

Mrs. Ed Hall tells us her mother, Mrs. Matilda Caudill, Smoot Creek, is doing fine after suffering a light stroke recently. Mrs. Caudill is at the home of a son, Isaac Caudill.

SOLDIER-READER ROBERT PIKE WRITES FROM ITALY; RAT BITE BRINGS SERIES OF RABIES SHOTS TO VICTIM

BY MRS. JIM REVIS
 PHONE 855-3841

I would like to start my news out this week with a letter I received from Vicenza, Italy from Specialist Robert D. Pike, who is stationed there in the service. He told me how much he loved my column and asked me to keep up the good work. His parents live in Pound, Va. They are Mr. and Mrs. Arnold Pike and they own a home in Neon. Robert plans to come home in 11 months and marry Wilma Jo Caudill of Millstone. We certainly wish him the best of luck while he's away and want to thank him very much for his kind letter. It makes us feel good to know the old Eagle goes so far across the ocean and does some Letcher Countians good.

The Beta Sigma Phi Sorority met at the home of Mrs. James Estep last week. Guest speaker Lillian Webb spoke on "Voice and Vocabulary reflects the Inner You." Those present were Sally Fugate, Natalie Murphy, Kathy Gains, Ann Daniels, Bobby Whitaker, Liz Jordon, Mary Jo Preston, Margaret Craft, Irene Smith, Nancy Welch, Inez Pratt, Barbara and Alice Hazen.

Neon firemen are really busy with all this bad weather. They were called to the home of Mr. and Mrs. Fred Harah at 6 o'clock Thursday morning. Sorry to hear that his home was badly damaged. Friday, a car caught fire in downtown Neon. The same day they were called to the home of a Mr. Burke at Hemphill. Not too much damage was done to either of those, we are happy to report.

Mr. Sturgill is in service and has just returned from a three-year tour in Germany. The Sturgills are now visiting friends and relatives in Haymond. The Johnsons visited two more daughters while in Detroit. They were Mrs. Helen Faye Russel and Jo Lynn Johnson, formerly of Haymond.

The band sold refreshments and the proceeds will be divided between the two clubs, and of course will go to charity. They hope to hold a game like this every year.

Little Rachel Revis is on the sick list this week.

tended church at Hemphill Sunday. Mrs. Hall has heard from her daughter, Joan, who is in Germany with her husband, Jimmy Wright. She tells her she will be home to stay a while with them soon. If we feel that we have more sorrow than we can bear, read Chapter 14 of St. John. It gives us courage to go on.
